COMPLETE THE ACCREDITATION FORM ELECTRONICALLY

Course Director _____

- 1. Name:** Catherine Creuzot-Garcher, MD, PhD
- 2. Address:** Department of Ophthalmology, CHU Dijon, 3 Rue du Faubourg Raines - 21000 Dijon
- 3. E-mail:** catherine.creuzot-garcher@chu-dijon.fr

Supportive society _____

- 4. Title:** EBO-EVER

General information _____

- 5. Course Title:** From clinical analysis to final diagnosis: semiology is the key.
- 6. Duration:** 1-hour course 2-hours course 3-hours course
- 3. Format:** Formal lectures and case presentations Commented diaporama Videobased course

Faculty _____

	<u>Name</u>	<u>E-mail</u>	<u>Address</u>
1.	Pournaras	constantin.pournaras@hcuge.ch	Switzerland
2.	Desjardins	laurence.desjardins@curie.net	France
3.	Voigt	voigtmon@yahoo.fr	France
4.	Hawlina	marko.hawlina@mf.uni-lj.si	Slovenia
5.	Bron	Alain.bron@chu-dijon.fr	France
6.	Cochener	beatrice.cochener-lamard@chu-brest.fr	France

- The course director will be in charge of all correspondence with the faculty.
- The course director will send the MCQs (MCQ form attached)

Course synopsis (max. 10 lines) _____

This course dedicated to residents for EBO training will highlight the interest of semiology in the analysis of clinical cases from various origins. Authors will focus their talk on the key role played by fundus analysis and the need of a good physiology and anatomy knowledge to understand the symptoms. The aim of this course is not to reach the diagnosis but rather to describe and to analyze the different items that are provided, ranging from visual field, angiogram, OCT, ERG, EOG, videotopography, aberrometry.

The goal of the course is to highlight the key role played by the analysis of the signs and the symptoms to reach the diagnosis

Aim(s) of the course (max. 10 lines) _____

The attendance will be invited to describe the clinical situations given by clinical cases. The analysis of the signs will be the main goal of the course. Students will have to justify the need for other exams.

Achievements (what will the participant achieve in knowledge) _____

The participants should be able to manage with common clinical situation like diabetes, pigmented lesion, retinal diseases and corneal topography.

They should have some practical knowledge about the usual management of the current situation in clinical practise. .

Course outline _____

	<u>Topic</u>	<u>Time (min)</u>
1.	Diabetic retinopathy	20 min
2.	Pigmented lesion	20 min
3.	Management of exudative ARMD	20 min
4.	Pause	15 min
5.	Retinal dystrophy	20 min
6.	What do I need to improve my glaucoma skills	20 min
7.	Refraction and refractive surgery	20 min
8.		
9.		
10.		
11.		
12.
