**Course synopsis (max. 10 lines)** \_\_\_\_\_

This course will have an unusual format which anticipates that the audience will participate.

All the important aspects of the diagnosis and management of scleral disease will be covered by the panelists answering a previously prepared question which should outline the problems encountered in the clinical situation. The topic will be then opened to the course participants.

The background information will be provided in hand outs

**Aim(s) of the course (max. 10 lines)** \_\_\_\_\_

To highlight those problems which cause difficulty in diagnosis and to ensure that there is an understanding of the rationale for treatment and how this can be applied to individual problems

**Achievements (what will the participant achieve in knowledge)** \_\_\_\_\_

A clear understanding as to how to manage patients with scleral inflammation
