

EUROPEAN BOARD OF OPHTHALMOLOGY
ENET PROGRAMME
(European Network for Education of Trainees)

APPLICATION FORM ENET
ACCREDITED COURSES

□□□□*

PLEASE COMPLETE THE APPLICATION FORM ELECTRONICALLY

Course Director _____

1. **Name:** James McCulley
2. **Address:** UT Southwestern Medical Center
3. **E-mail:** james.mcculley@utsouthwestern.edu

Supportive society (in due order with UEMS accreditation) _____

4. **Society:** ESCRS
5. **Date/hour when this course will take place:** 04/09/2010, 1700-1800
6. **Location:** Les Palais des Congrès, Paris, France
7. **UEMS application introduced:**
in due order:

General information _____

8. **Course Title:** Pathogenesis and Therapy of Chronic Blepharitis
9. **Classification according to EBO syllabus***
10. **Duration:** 1-hour course (1-3 speakers) 2-hours course (4- 6 speakers)
 3-hours course (6-8 speakers) 4-hours course (8-10 speakers)
11. **Format:** Formal lecture Commented diaporama Videobased course
 Case presentations On-line course E-learning
12. **Course level:** Basic Advanced

* To be filled in by European Network for Education of Trainees (ENET) responsible

Course synopsis (max. 10 lines)

Chronic blepharitis is one of the most frequently presenting and frustrating conditions in an Ophthalmologist's practice. A classification system for chronic blepharitis has been developed that not only helps better understand the pathophysiology in an individual patient but assists in determining initial as well as long-term therapy. The direct and indirect role of bacteria will be presented. Meibum biochemical changes in the different types of blepharitis will also be presented as well as insights as to how these changes can contribute to disease. Acute phase therapy to bring the condition under control will be presented as well as optimal long-term therapy to maintain control. The role of topical and systemic antibiotics will be discussed. The frequently associated tear film abnormalities will be discussed as well as their ideal therapy. The Course will present current understanding and clinical applications of rotating Scheimpflug Tomography and Biomechanical measurements based on the corneal response from the air pulse, for enhancing sensitivity and specificity for screening refractive candidates.

Aim(s) of the course (max. 10 lines)

To familiarize ophthalmologists with the heterogeneous nature of chronic blepharitis and the differing pathophysiological mechanisms associated with different forms. The ophthalmologist will be advised about the optimal-acute phase therapy to bring the condition under control as well as chronic-phase therapy to maintain control. The audience hopefully will understand the frequently associated tear abnormalities and their optimal therapy.

Achievements (what will the participant achieve in knowledge) _____

To familiarize ophthalmologists with the heterogeneous nature of chronic blepharitis and the differing pathophysiological mechanisms associated with different forms. The ophthalmologist will be advised about the optimal-acute phase therapy to bring the condition under control as well as chronic-phase therapy to maintain control. The audience hopefully will understand the frequently associated tear abnormalities and their optimal therapy.

Course outline (please specify or add a flyer) _____

	<u>Topic title</u>	<u>Time (min)</u>
1.	Types of blepharitis	7.5
2.	Classification of chronic blepharitis	7.5
3.	Clinical manifestations of various types of blepharitis	7.5
4.	Pathophysiological mechanisms in chronic blepharitis	7.5
5.	Role of bacteria and their by-products in chronic blepharitis	7.5
6.	Topical therapy for each of the types of chronic blepharitis	7.5
7.	Role of systemic therapy in chronic blepharitis	7.5
8.	Other potential therapeutic modalities on the horizon	7.5
9.		
10.		

Agreement (to be filled in by the course director)

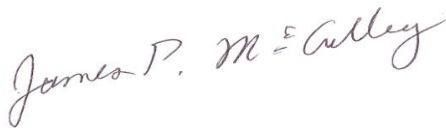

I hereby agree

- to distribute the evaluation forms prior to the start of the course
- to collect the evaluation forms after the course
- to collect the MCQs from the faculty within a timeframe of two weeks after the course
- to wave registration fee for the peer reviewer
- to provide UEMS accreditation of the hosting society
- to send the evaluation forms to Dara Conlon
- to complete the MCQ form in attachment

Name + Signature:

James P. McCulley

Date: 7/7/10

Application Form to be sent to _____

Marie-José Tassignon, Antwerp University Hospital, Dept. of Ophthalmology, Wilrijkstraat 10, 2650 Edegem, Belgium
